- Good level of SolidWorks (parametric modeling) and AutoCAD.
- High motivation and good assertiveness.
- High level of initiative, autonomy and strong communication and organization skills.
- Communications skills in English and preferably as well in German.
- Very good and confident behavior towards customers, suppliers etc.

What do we offer you?

- An interesting and varied job in a friendly team.
- A long-term employment.
- An introduction to the mega yacht scene.
- The opportunity of implement your own ideas and improvements.
- The possibility of having further tasks and responsibilities to grow with our business.

About our company:

Yachtwerft meyer is based in the region of Bremen and is a medium-sized family-owned company (about 50 employees on average) with a very good standing in its segment. The company has become a well-known innovative address in the world of shipyards for special boats, including private customer business as well as a successful supplier of tenders and equipment for megayachts sectors, national and international.

In addition, the company group created another important focus that can be used in the development and construction of innovative products in the fiber composite part as be used in shipbuilding, aviation and automobile industry.
